Sir:

Further in response to the Official Action dated October 11, 2005, concerning the above-identified application, please consider the enclosed remarks favorably.

REMARKS

Applicants respectfully request the Examiner's assistance in correcting an informality in the present application. Specifically, the lead inventor's surname is "Samuels", not "Sameuls". The misspelled name appears in the typed portion of the signature lines of the Assignment, the Declaration, and the Power of Attorney. This inventor's signature on the formal papers clearly reads "Samuels", however. Moreover, the signature is consistent with the information on the Application Data Sheet, a copy of which is enclosed for convenience. Therefore, it is respectfully requested that this apparent typographical error be rectified. The Examiner is urged to contact the undersigned attorney should any further procedure or document be required to effect this change.
